

Garden Club Presentations by Photographer Kirsten Torkelson of KTIImages.net

Enjoy a program of flower and garden photographs by photographer Kirsten Torkelson

My most popular presentation is **"How to Take a Better Photograph"** where I give tips on how to take better photographs of your own garden or favorite houseplants. Lecture/Demo is the best format for larger clubs. For groups of 30 or less the workshop format works well. For the workshop I bring flowers for club members to practice taking photographs using the tips given in the first half of the presentation. With both formats club members go home with a tip sheet to help them apply the tips given on how to taking better photographs and includes tips for cell phones. *(Available in person only)*

Presentation available in person and on zoom include:

- History of the Bridge of Flowers
- Magic Wings (Butterfly Conservatory)
- History of Longwood Gardens

I have my own laptop, projector, and screen so all your club needs to provide is tables, a chair, and a power plug. Zoom presentations available but the meeting will need to be hosted on the club's own zoom account.

My fees are \$225 for zoom presentations lasting 50-60 minutes, \$250 for a 1 hour in person presentation, \$300 for 1 ½ -2 hour demo and workshop. There are no additional fees for materials or the small prizes I provide for your club members. I do not charge a milage fee unless your meeting is more than 60 miles from the center of Foxboro, Massachusetts (I will consider clubs further away but will need to charge a 25 cents/mile fee for gas).
